

Abyss™

PREMIUM SOIL PENETRANT

Flushing Aid

Uniform Moisture Penetration

Effective Across Soil Types

Abyss™ is premium soil penetrant designed to disperse moisture through the soil profile. Abyss provides uniform infiltration across a wide variety of soil types. When used as part of a management program, Abyss reduces the symptoms of localized dry spots and hydrophobic soils. Abyss is completely safe on all fine turf.

FEATURES AND BENEFITS

- **Penetrate water in hard to wet areas**
- **Manage moisture in heavier soil more effectively**
- **Move moisture during excessive rain or irrigation**
- **Better movement of sodium during flushing soils**

Application Instruction:

On Turf, Apply 1 - 2 fl. oz. / 1,000 sq. ft., reapply 21 - 30 days or as needed.

For best results: Apply at a minimum of 2 gal. / 1,000 sq. ft. spray solution and water-in same day of application.

Use Abyss when applying soil targeted pesticides such as pre-emergent herbicides, insecticides and fungicides. Abyss's anionic surfactant's aide pesticide movement through thatch. While providing consistent and uniform soil moisture and pesticide distribution.
